Tamil

English

## PROJECTS

### **HabileSec Security Solutions Website Development**

Role: FrontEnd Developer

Technologies Used: React JS, Tailwind CSS

Description: Developed the official website for HabileSec using React.js and Tailwind CSS. Implemented a dynamic chatbox, animated counters, and an integrated contact form that sends user data directly to the company email. Ensured seamless performance, cross-browser compatibility, accessibility, and SEO optimization.

### **Tanikkai Website Development**

Role: FrontEnd Developer

Technologies Used: React JS, Tailwind CSS

Description: Developed the official website for Tanikkai using React.js and Tailwind CSS. Integrated a dynamic chatbox, animated counters, and a contact form that submits user information directly to the organization's email. Ensured responsive UI, REST API integration, and accessibility across all modern browsers.

### **Cybersecurity Awareness Application (Tanikkai)**

Role: Full Stack Developer

Technologies Used: React.js, Tailwind CSS, PHP Laravel, MySQL (XAMPP), Postman

Description: Developed an interactive platform to educate users on cybersecurity by presenting questions and tracking answers. Built a modern React frontend, Laravel backend, tested APIs with Postman, and managed data via XAMPP.

### **AspireLens - School Event Photo Purchase App**

Role: Full Stack Developer

Technologies Used: React.js, Tailwind CSS, PHP Laravel, MySQL (XAMPP), Postman

Description: Created a photo purchase platform for school events. Users can browse and buy event images. Built a responsive frontend and secure backend. Used Postman for API testing and XAMPP for data storage.

## CERTIFICATIONS

**Front-End Development Internship - Vebbox Software Solutions** — (Jul 2023 - Oct 2023)

## ADDITIONAL INFORMATION

- Strong analytical and problem-solving skills.
- Passionate about learning and new technologies.
- Open to full-stack and front-end development role.
